EVENT: Educational Tour to University of Science and Technology (USTM), Meghalaya

DATE: 8th September, 2023

As part of their curriculum, B.Sc. 5th semester (Honours) students were taken on a one-day educational tour to the department of Zoology, USTM, Meghalaya. Two departmental staff members (Mrs. Mrinali Hazarika and Dr. Manalisha Deka) accompanied 16 students on their excursion. Around 7 a.m., the bus left Nagaon, Barpeta and arrived at the intended destination at around 12 p.m. Once reached, the HoD of the department of Zoology, USTM provided an overview of the department and the various branches accessible in the department of Zoology. They gave a tour of their Museum of Biological Diversity for Preservation, Taxonomical Studies and Recreational Aesthetic Value; Care & Breeding of Laboratory Animals in Institutional Animal House; Entrepreneurial Skill Development & Revenue Generation through Biofloc Fish Culture Unit which were quite interesting to see. Following the opening session, one of their faculty members led our students to their laboratory and demonstrated ovariectomy in laboratory bred rats as part of their Endocrinology (ZOO-HE-5036) paper. Following the experimentation, they visited the Fishery Branch of USTM. The party then had lunch in USTM's canteen before returning to Barpeta at 3:00 p.m. The excursion was a novel and helpful experience for our students since they received hands-on instruction in the presence of professionals.

The detail of the programme is given below:

Program name	Program code	Name of the course that include experiential learning through project work/field work/internship	Course code	Year of offering
B.Sc. Zoology	UG	Demonstration of Castration/Ovariectomy in laboratory bred rat	ZOO-HE-5036 (Endocrinology)	2023
