

**Date: 08/ 10/ 2021**

**1. Title of the Report**  
**Student Induction Programme (SIP)**

**2. Introduction**

Purpose of Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self exploration.

The term induction is generally used to describe the whole process whereby the incumbents adjust to or acclimatize to their new roles and environment. Student Induction Programme engages with the new students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed.

Students Induction could cover a number of different aspects (SAGE):

**Socializing:** meeting other new students, senior students, students union, Lectures by Eminent People;

**Associating:** visits to University / college, visits to Dept./Branch/ Programme of study & important places on campus, local area, city and so on;

**Governing:** rules and regulations, student support etc;

**Experiencing:** Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

- 4. Total number of participants:** 254 students participated in the programme
- 5. Convener / Chief Guest / Speaker / Organizer of the event-** An IQAC Initiative
- 6. Outcome of the event:**

The goal of higher education is to nurture human beings responsible for their own betterment and capable of sustaining society and nature, besides enabling them to procure a position to earn their livelihood. The incoming undergraduate students are often influenced by their parents and society to join higher study without understanding their own interests and talents. There is high probability that students fail to develop an understanding about the goals of Educational Institutes as well as higher education. The graduating student must have knowledge and meta-skills related to his/her work, and as a citizen.

The Student Induction Programme should be designed for the new students to help them feel comfortable, draw their attention towards exploring their academic interests and activities, reducing competition and making them work for excellence, promote bonding within them, build relations between teachers and students, open new horizons of life and leading to character building.

Mentoring based on Universal Human Values such as Truth, Righteous conduct, Love, Non-violence and Peace can act as an anchor or pivot of the induction, and help in developing self awareness and sensitivity, feeling of equality, compassion and oneness. Students' attention need to be drawn to society and nature. Help them reflect on their relationship with their families and which is extended to college as a family, connects students among themselves and with teachers, so that they can share any difficulty they might be facing and seek help.
