Baosi Banikanta Kakati College : A Profile

Baosi Banikanta Kakati College, established at Nagaon on the 25th of July, 1971, is ideally nestled amidst the lush green paddy fields and sylvan serenity, 12 kilometres away from the din and bustle of the urban atmosphere of Barpeta town and about 70 Kms from Guwahati. As this is essentially a rural college, the academic needs of the local populace are given utmost importance. Since its inception, the college has been playing seminal role in imparting and disseminating higher education and grooming leadership in the development of the area and has successfully completed 49 years of academic excellence.

Today, the college caters to the educational needs of approximately one thousand and seven hundred students in the faculties of Arts, Science and Computer Application in the Higher Secondary, the Undergraduate and Post Graduate Level. The college has been awarded with B++ grade (2nd Cycle) by the NAAC peer team.

Significance of the Workshop

Early marriage has been linked to low educational attainment, poor health outcomes for offspring, low maternal social status in husbands, families, compromised reproductive control and high rates of infant and maternal mortality and marital violence. Girl of today will be the mother of tomorrow. To create awareness among adolescent girls on different issues relating to their health and their child bearing age is fundamental to the solution of the problem. The status of women in Indian society is a much debated subject. Specially, the position of women of Minority communities has been the subject of much controversy ever since they came under the impact of Western education. The problems are multi-faceted and closely related to the problems of the Minority society as a whole. Hence, the approach for betterment of the lot of Minority women depends mainly on the holistic approach towards solving the problems, based on their socio economic and cultural aspects.
