Report on-
**Lecture on “Conservating Nature: A Case of
Manas National Park”**

A lecture on “**Conservating Nature: A Case of Manas National Park**” was organized on the occasion of **World Environment Day** on the 5th of June, 2021 in Google Platform (<https://meet.google.com/otv-zxko-gfz>) at 11 am by Clean and Green Cell and IQAC of BBK College, Manas Maozigendri Eco-Tourism Society, Baksa and Mushalpur College (Affiliated to Gauhati University) as a follow up action of the MoU signed between the mentioned organization and Institution on 23rd March, 2021. The Guest Speaker on the occasion was Mr. kalicharan Basumatary, President of Maozigendri Eco-Tourism Society and a renowned environmentalist who has been actively working towards the conservation of nature for the last decade. The lecture was attended by students, faculty members of Mushalpur College and BBK college and other environmental enthusiasts. There were around 50 participants.

The main theme for the occasion was “Together, we can restore the Earth”. The event was aimed at creating awareness on the need to protect environment for a better future. The event was attended by students and teachers. The Introductory speech was delivered by Dr. Gopal Kr. Sarma, the coordinator of IQAC, where he introduced the guest speaker and presented a short note on the purpose of the lecture. Dr. Pradip Das and Dr. Priryonath Basumatary, the Principals of BBK College and Mushalpur respectively delivered short speeches highlighting the urgent need to conserve nature.

The guest speaker then went on to discuss various aspects of conservation of nature. He talked about the importance of biodiversity and how it is essential for

maintaining ecological balance. He explained how every species, no matter how small, plays a crucial role in maintaining the delicate balance of nature. He also discussed the impact of human activities like deforestation, pollution, and climate change on biodiversity and emphasized the need to take immediate action to protect our natural resources. The speaker mainly presented the case of **Manas National Park** which was once famous for poaching of endangered one horned rhino and felling of trees. He also emphasized on how the poachers turned to be the protectors of the reserved forest they were once destroying. He highlighted on the role of individuals in conservation efforts. He encouraged everyone to take small steps towards conserving nature, such as reducing plastic usage, conserving water, and planting trees. He also talked about the importance of sustainable development and how it can help us achieve economic growth while protecting the environment.

The lecture concluded with a discussion on the challenges faced in conservation efforts and how we can overcome them. The speaker emphasized the need for collective action and collaboration between governments, organizations, and individuals to achieve sustainable development and protect our planet.

The lecture on conservation of nature was an eye-opener for everyone who attended it. It highlighted the urgency of taking action to protect our natural resources and preserve biodiversity. The speaker's emphasis on individual responsibility and sustainable development was particularly inspiring. The participants also shared their views on the occasion. The concluding remark on the occasion was “It is now up to us to take action and do our part in conserving nature”.

The concluding speech was delivered by Dr. Krishna Kanta Sarma, the coordinator of Clean and Green Cell of BBK College.
